Summary

As a front-end web developer with 2 years of experience and a passion for creating beautiful and functional user experiences, I am seeking a position that will allow me to leverage my skills in HTML, CSS, JavaScript, TypeScript, Tailwind, ReactJS, and NextJS to deliver high-quality solutions for clients. My experience so far has granted me the opportunity to build and maintain the front end and communicate closely with backend engineers at Love Together.

Experience

Frontend Developer

Love Together

Nov 2022 - Present (4 months)

- Designed and maintained user interfaces for our web application, ensuring a consistent and user-friendly experience across all platforms
- Collaborated with the back-end development team to integrate front-end code with back-end systems and services
- Utilized modern front-end technologies such as React, Nextjs, and Tailwind to create responsive and scalable user interfaces
- Integrated authentication and authorization features into web applications, ensuring secure access for users
- Integrated admin dashboard for the owner and other developers so they can perform CRUD operations on the database without having to exit the app
- Contributed to the development of the company's internal design system, creating reusable components to improve development efficiency and consistency across projects
- Assisted in handing the project off to a new group of developers

Education

Bruton High School

High School Diploma

Sep 2013 - Jul 2017

Skills

HTML • Cascading Style Sheets (CSS) • JavaScript • TypeScript • React.js • Nextjs • Tailwind CSS • Git
