Summary

As a front-end web developer with 2 years of experience and a passion for creating beautiful and functional user experiences, I am seeking a position that will allow me to leverage my skills in HTML, CSS, JavaScript, TypeScript, Tailwind, ReactJS, and NextJS to deliver high-quality solutions for clients. My experience so far has granted me the opportunity to build and maintain the front end and communicate closely with backend engineers at Love Together.

Experience

Frontend Web Developer
Love Together

Nov 2022 - Present (5 months)

- Created and maintained user interfaces (based on designs) for our web application, ensuring a consistent and user-friendly experience across all platforms.
- Contributed to the development of the company's internal design system, creating reusable components to improve development efficiency and consistency across projects.
- Collaborated with the back-end development team to integrate front-end code with back-end systems and services.
- Integrated authentication and authorization features into the web application, ensuring secure access for users.
- Integrated admin dashboard for the owner and other developers so they can perform CRUD operations on the database without having to exit the app.
- Assisted in handing the project off to a new group of developers.

Education

Bruton High School
High School Diploma

Sep 2013 - Jul 2017

Skills

TypeScript • Tailwind CSS • Next.js • React.js • HTML5 • Cascading Style Sheets (CSS) • JavaScript
